

Texas Department of Public Safety Texas Division of Emergency Management State Situation Report

Event Name	8 May 2015 Severe Weather Event SITREP
Date	05/12/20/15
Time	0700
Operational Period	05/11/15 – 05/12/15
Report Number	5

Regions Affected	
DPS Regions Affected	1, 2, 3, 5, 6
DDCs Active	4 Hurst, 6

STATEWIDE CURRENT SITUATION:

Pursuant to his powers as Governor of the State of Texas, Greg Abbott has issued a proclamation certifying that the severe weather, tornado and flooding event that began on Monday May 4th, 2015, has caused a disaster in Bosque, Clay, Denton, Eastland, Gaines, Montague and Van Zandt Counties. In response to severe weather conditions and to coordinate a rapid and effective response, the State Operations Center (SOC) increased its level of response to Level II – Escalated Response Conditions effective at 7:00 AM (CDT) Friday May 8th, 2015. State Emergency Management Council have sent state agency and volunteer agency representatives to the SOC to support resource requests. The SOC conducted a severe weather conference call with the National Weather Service Offices and state agency representatives at 10:00 AM (CDT) this morning.

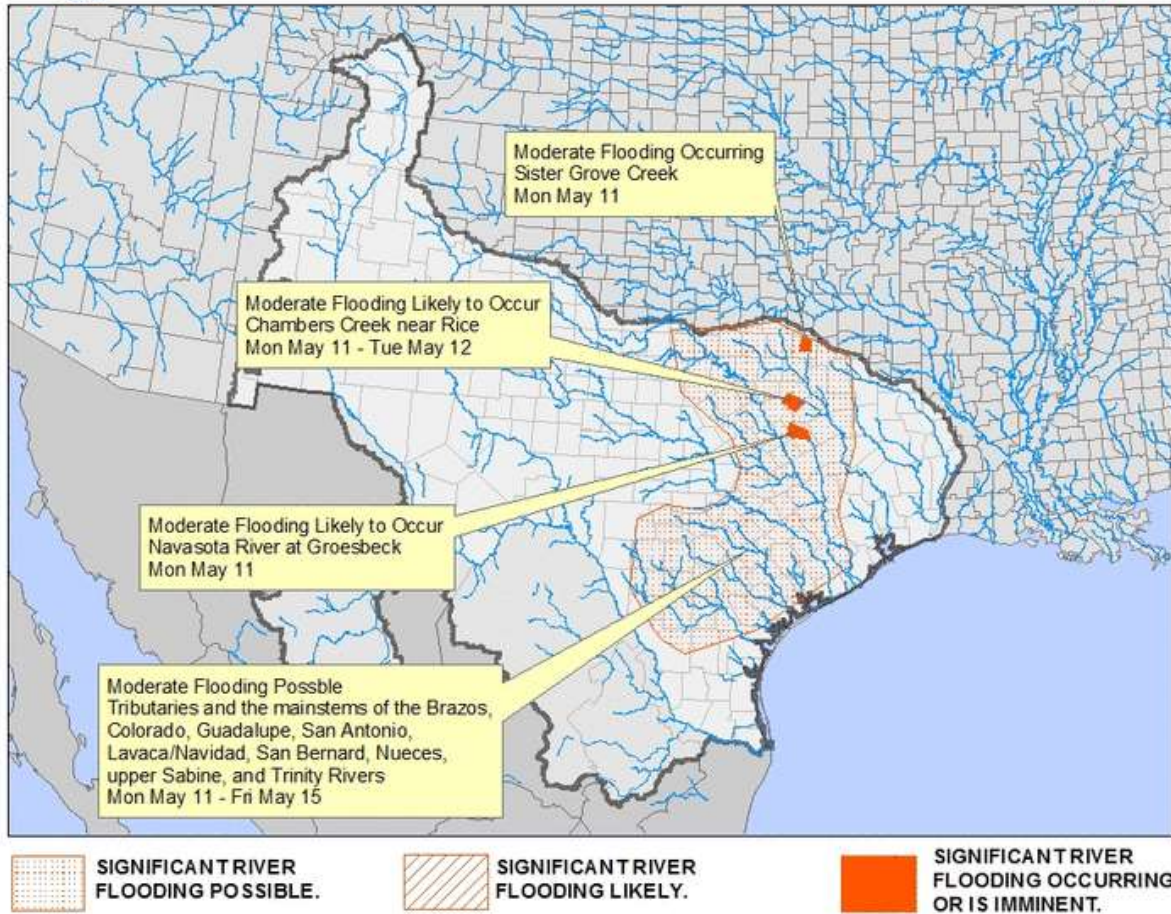

Widespread moderate to heavy rain is expected over the next several of days for Texas as deep moisture from the Gulf of Mexico continues to interact with a stalled out frontal boundary over the southern half of the state. Multiple thunderstorm complexes are likely, and these could easily bring several inches of rain, damaging wind, large hail and isolated tornadoes as well. The focus for heavy rainfall will spread north and east over the course of the week as low level moisture surges into the Central Plains. Showers and thunderstorms remain in the forecast into and through the weekend.

Significant River Flood Outlook

Valid: 5/11/2015 - 5/16/2015

West Gulf River Forecast Center 5/11/2015 8:36:57 AM

Significant River Flooding impacts include:
Roads adversely affected. Residential,
commercial, industrial, and/or agricultural
areas affected. May require evacuation of people.

NOTE: Flash Flooding or Minor River Flooding
will NOT be included in this outlook.

National Weather Service Office (NWSO) Houston/Galveston has forecast isolated thunderstorms will be possible across southeast Texas. There is a potential for an isolated strong storm to produce gusty winds, small hail and locally heavy rainfall across counties north of Houston metro.

National Weather Service Office (NWSO) Austin/San Antonio has forecasted a chance for locally heavy rainfall leading to flash flooding. A flash flood watch is in effect for all of south central Texas. There is a marginal risk for severe thunderstorms capable of producing large hail and damaging wind, primarily over the western areas such as the Rio Grande Plains and Southern Edwards Plateau.

OPERATIONAL PRIORITIES:

1. Protect life and property.
2. Support rapid & effective response.
3. Collect and disseminate accurate incident information to improve decision-making.
4. Accurately track incident costs associated with assigned resources for cost recovery.
5. Maintain communication with impacted local jurisdictions.

Region 1 (Includes DDCs 4, 5, 6, 22)

DDC 4 Hurst (Includes Wise, Denton, Palo Pinto, Parker, Tarrant, Hood, Erath, Johnson and Somervell Counties)

Denton County: Numerous Swift Water Rescues occurred in the City of Krum. Disaster District Hurst has activated to Level II (Escalated Response Conditions) and is co-located in the Denton County Emergency Operation Center (EOC). A Disaster Declaration has been submitted.

Erath County: The roof of the Erath County volunteer fire station in Morganville was reported blown off. Two high water rescues were performed. Four reception centers were opened with an estimated 380 visitors, but has since closed.

Hood County: The City of Granbury has submitted a Disaster Declaration and a Disaster Summary Outline (DSO). The Hood County EOC is activated.

Tarrant County: Tarrant County has submitted a DSO.

City of Grapevine: The National Weather Service (NWS) reported possible tornado activity in the city yesterday morning. The city reported numerous trees, fences and roofs damaged in the Corridor of Mesa Verde, Cripple Creek Trail, Tumble Weed Trail, Caprock Court across Dove Road over to Camelot and Mancheslter Lane. There were reports of power outages and power lines and power poles down. ONCOR crews are responding to restore power. Damage assessments are ongoing.

Wise County: A Disaster Summary Outline has been submitted for Wise County due to a tornado and flooding that has impacted 15 mobile homes. One injury was been reported. Farm to Market (FM) 1655 and 2265 are closed with barricades set up by by Texas Department of Transportation (TxDOT).

DDC 4 Garland: (Includes Collin, Dallas, Ellis, Hunt, Kaufmann and Navarro Counties)

Collin County : City of Celina is experiencing flooding due to two creeks that have overflowed their banks. Ten homes were evacuated with the possibility of 40-50 more requiring evacuation if the water continues to rise. American Red Cross (ARC) is assisting with sheltering the displaced residents. No request for state assistance has been requested at this time.

DDC 6 Tyler: (Includes Rains, Van Zandt, Henderson, Anderson, Wood, Smith, Cherokee, Camp, Upshur, Gregg, Rusk, Marion, Harrison and Panola Counties)

Henderson County: Twelve water rescues occurred. Three injuries and one fatality were reported. A portion of FM 317 over the Athens Fish and Game dam was reported washed away. A first call for voluntary evacuation was completed, due to possible dam failure. The Sheriff's Office also went door to door. Thirty-five homes were evacuated, 7 residents refused to evacuated under the voluntary order. The ARC is providing food and water at Life Fellowship Church located at 175W and CR 3918.

The City of Athens is under a boil water notice until the Texas Commission on Environmental Quality (TCEQ) lifts the ban.

Navarro County: The County Judge is in the process of issuing a Disaster Declaration. The City of Corsicana confirmed one fatality due to high water. State Highway (SH) 31 is open in the city. The Emergency Management Coordinator (EMC) reported extensive flooding in the Corsicana area. Numerous secondary streets were closed due to high water. A shelter was opened at The Salvation Army (TSA) for motorists stranded in the Corsicana area, but has since closed.

SH 31 is closed in the Dawson area due to high water.

Van Zandt County: A tornado touched down in the City of Van, Van Zandt County at approximately 10:00 PM Sunday evening. The NWS determined that an EF-3 tornado impacted an area approximately $\frac{3}{4}$ mile wide and three (3) miles in length. Forty-seven injuries, 2 fatalities. The Mayor of Van has imposed a curfew for the incident area starting at 3:00 PM Monday May 11th, 2015. Damage assesements began Monday morning. A Disaster Declaration was submitted by the City of Van. One hundred homes and 4 government buildings have sustained major damages. The City of Van is currently without water, approximately 2,650 individuals are affected. A shelter was established at the First Baptist Church, located at 119

East Main Street. Capacity is 200 with a census of 100 persons. Three requests for assistance were submitted to the SOC for an Incident Management Team (IMT), Texas Task Force 1 (Tx-TF1) Area Search and Rescue (SAR) team and a canine recovery team. The county EOC is activated.

DDC 22 Sherman (Includes Cooke, Fannin and Grayson Counties)

DDC 22 has multiple county roads that had been closed during the flooding due to either water across the roadway or due to major damage from water surge; no major highways are currently closed. A more detailed assessment will be available upon completion of the county judges and commissioners damage assessment reports, which are expected to be submitted today.

Grayson County: Grayson County DSO has been submitted. The Grayson County EOC is activated.

Region 2 (Includes DDCs 13, 14, 15, 16)

DDC 13 Bryan (Includes Leon, Madison, Robertson, Brazos, Burleson, Grimes and Washington Counties)

Grimes County: TxDOT has closed SH 90 between Navasota and Anderson due to high water over the roadway and have requested that motorists find alternate routes. TxDOT has asked motorists to avoid the following locations: FM 1774 at Haynie Creek and Holland Creek; FM 1774 at FM 2819 (and 1 mile East); FM 2819 at Garretts Creek; FM 2562 at Garretts Creek (one lane closed); FM 3090 at Coleman Creek; FM 1486 at Garretts Creek and FM 1486 in Richards.

The City of Navasota experienced excessive rainfall and will continue to receive possibly two to three additional inches. Residences in flood-prone areas are being evacuated to the city civic center. An estimated 21 citizens have been transported to the civic center and the city has requested ARC run the shelter. Additionally, the downtown area was impacted by high water and were flooded. TPWD has positioned two boat squads at the Grimes County Sheriff's Office (SO). They are providing two shallow-water boats and four four-wheel drive vehicles.

Leon County: TxDOT has asked motorists to avoid FM 542 at Keechi Creek and FM 1848 at Buffalo Creek.

DDC 16 Conroe (Includes Liberty, Montgomery, Walker and Waller Counties)

Montgomery County: Western Montgomery County in and around the City of Montgomery experienced three to four inches of rainfall overnight, resulting in flash flooding. Entergy reported that 1,100 customers were without power.

Walker County: TxDOT has been on scene placing barricades and "Water over Roadway – Road Closed" signs at the following roads: FM 1791 and Spell Bottom Road; FM 247 and Lost Indian Camp Road; SH 190 and FM 2929; SH 30 and San Jacinto River. TxDOT and county commissioner crews cleared downed trees from FM 405 and FM 1375. Several secondary roads were closed. Walker County Community Emergency Response Team (CERT) is

delivering tarps to impacted homes. Entergy reported one hundred eighty-eight (188) customers without power in Walker County.

In the City of Huntsville, a gas station canopy was blown across the road at South Sam Houston Avenue.

In the City of Dodge three homes sustained wind damage. Damage assessments will continue. ARC is assisting families relocate (as no shelters have been opened).

Waller County: The cities of Waller and Hempstead experienced flash flooding Monday morning, but no road closures were reported.

Region 3 (Includes DDCs 19, 20, 21, and 24)

DDC 19 – Laredo (Includes Webb, Zapata, Jim Hogg, Starr Counties)

DDC 19 activated to Level 3 (Increased Readiness) to monitor weather developments.

In the City of Rio Grande City flash flooding and power outages occurred, the fire department initiated a voluntary evacuation in the Las Lomas area. A few evacuees were taken to the local police department. The local 911 system was reported down due to the power outage. There is a shelter on standby at the Fellowship Hall, located at 1196 West Main Street, but the shelter is also having power issues. United States (US) Highway 83 between the fire department and Wal-Mart was closed due to flooding, but has been re-opened. Power was reported to be flickering at the Starr County Memorial Hospital, but the power is up and running.

DDC 20 – Corpus Christi: (Includes Refugio, Bee, Live Oak, San Patricio, Nueces, Jim Wells, Kleberg, Duval, Brooks and Kenedy Counties)

Bee County: Straight line winds were reported near the Pawnee area. Water and trees were reported to be covering the roadway in several locations. FM 882 is closed from SH 72 to the Bee/Live Oak County line. Bee County maintenance crews responded to perform clean-up operations.

DDC 24 – Del Rio: (Includes Val Verde, Edwards, Real, Kinney, Uvalde, Maverick, Zavala, Dimmit, La Salle Counties)

DDC 24 activated to Level 3 (Increased Readiness) to monitor weather developments.

Maverick County: Customs and Border Protection (CBP) reported water over the roadway in Quemado area affecting US 277. Power lines are down, due to limited lights traffic has been diverted to SH 131 to Bracketville and then to US 90 to Del Rio.

The Maverick/Eagle Pass EOC was activated to level III and is monitoring rising water over US 277 at Elm Creek. The San Luis Community Center at 1490 Williams Street has been opened for those wishing to evacuate the Elm Creek area.

Region 5 (Includes DDCs 1, 2, 3, 7)

DDC 3 Wichita Falls (Includes Hardeman, Wilbarger, Wichita, Cottle, Foard, Clay, Montague, Baylor, Archer, and Young and Jack Counties)

Archer County: One fatality reported at Lake Wichita. Archer County SO is currently investigating the fatality to determine if the fatality is weather related. There are no unmet needs at this time.

Clay County: Approximately 40 county roads have sustained water damage. Two homes are affected and one has minor damages. A Disaster Declaration and request letter has been submitted. County Commissioners will continue to update the DSO as water recedes.

Montague County: A Disaster Declaration and request letter were submitted. A DSO will be submitted after damage assessments have been completed.

Wichita County: An estimated 300 customers in Electra lost power due to transmission lines being damaged from the wind. Southwest Rural Electric has repaired the lines and power has been restored. Wichita County/Wichita Falls provided a 125Kw generator to power one of the communications sites for the fire department and law enforcement. The waste water plant was down temporarily due to high water overwhelming the pumps. Three pumps are currently damaged, yet the plant is operational.

Ten homes sustained minor to moderate damage due to the severe weather. There are no displaced homeowners. One apartment building sustained fire damage and two persons were transported to the hospital.

Several electric poles from co-op and non-co-op electric companies were damaged.

DDC 7 Abilene (Includes Knox, Kent, Stonewall, Haskell, Throckmorton, Scurry, Fisher, Jones, Shackelford, Stephens, Mitchell, Nolan, Taylor, Callahan, Eastland, Runnels, Coleman, Brown and Comanche Counties)

Eastland County: A tornado was reported in the City of Cisco. The tornado was accompanied by hail, ranging in size from golf ball to baseball-sized. One fatality and 3 injuries were reported. Seven homes were confirmed destroyed. Numerous structures have been damaged and there were reports of downed power lines and trees that are blocking several county roads and state roadways. State and county personnel are working to clear those areas. Approximately 80% of Eastland is without power. AEP is working on clearing the downed power lines and restoring power. Extremely heavy rainfall hampered response efforts and has created a concern for flooding.

Eastland County Judge submitted a DSO and will submit a Disaster Declaration later.

Stephens County: FM 578 is closed 1.5 miles south of FM 1974 to FM 1471 due to water covering the roadway. Oncor is reporting over 1,100 residents are without power.

Region 6 (Includes DDCs 11, 23, 12, 18, and 17)

DDC 11/23 – Waco (Includes Bell, Bosque, Coryell, Falls, Freestone, Hamilton, Limestone, McLennan, Milam, Mills and San Saba Counties)

DDC 23 activated to level III (increased readiness conditions)

Bosque County: Bosque County submitted a Disaster Declaration. Damage assessments will continue with an associated DSO to follow. USC reports there are currently 27 residents without power. One home was damaged by wind and water. Eight outbuildings were damaged or destroyed by winds. Power poles and power lines damaged are being repaired by utility companies with power being restored in affected areas.

Hill County: Damage assessments are ongoing. The county reported minimal damage consisting of primarily trees and vegetation with debris removal operations underway.

Limestone County: Limestone County EMC reports that Lake Mexia is exceeding capacity and residential flooding is occurring or is imminent. Voluntary evacuation orders have been issued. SH 84 is restricted due to high water and passage on US 84 at Lake Mexia is restricted due to water covering the road.

DDC 12 – Austin (Includes Burnet, Llano, Blanco, Williamson, Travis, Hays, Lee, Bastrop, Caldwell and Fayette Counties)

Bastrop County: Bastrop County Office of Emergency Management (OEM) EOC is at response level 1, staffed by OEM personnel only. Multiple roads were closed due to continuous rainfall; however, there have been no reports of any damage to homes, structures or other properties. SH 21 at Gonzalez and SH 21 at Main are flooded. Squirrel Run is completely covered and is possibly washed out. In the 600 block of Stockade, a tank is overflowing and flowing across the road. Two sections of SH 21 at Ortiz are flooded and barely passable. Assessments are being conducted of all impacted areas to check the status of low-water crossings and closed roads.

Travis County: Multiple roads were closed due to continuous rainfall, but there have been no reports of homes, structures or properties damaged.

Williamson County: Multiple roads were closed due to continuous rainfall, but there have been no reports of homes, structures or properties damaged.

RESPONDING STATE AGENCIES/ORGANIZATIONS REPORTS

Texas Task Force 1 (TEEX/TX-TF1):

Texas Task Force 1 (TX-TF1) is standing-by for resource requests. TX-TF1 has 11 Helicopter Search & Rescue Technicians (HSART) and 2 HSART LNO supporting 2 TxMF UH-60s rotary wing aircrafts from Martindale which are staged in Grand Prairie. Two additional UH-60s are staffed and available in College Station. One UH-60 and 1 UH-72 are staffed and staged in Austin. Seven State of Texas Swift Water Rescue Squads with rostered crews on alert with the following agencies: Austin Fire, San Antonio Fire, STRAC and Washington County EMS. Three Swift Water Rescue Squads have been activated. Denton has been activated in place. Fort Worth has been moved to the Denton County Armory and 1 Austin squad has moved to Fort Worth. One Swift Water Rescue Manager

has been activated as well and moved to Denton County. A Type-III USAR team is activated in College Station.

Resource Kind and Type	Quantity	# Personnel	Status	Resource Location

Texas Department of Public Safety (TXDPS): TXDPS is monitoring the severe weather conditions consisting of tornado warnings, flooding, heavy rainfall and multiple road closures.

Aviation assets:

Five SAR helicopters, 2 hoists and 3 short haul are available for the SOC. One in San Antonio (hoist), 1 in Austin (hoist), 1 in Edinburg (short haul), 1 in Houston (short haul) and 1 in Mesquite (short haul). TXDPS aircraft assets will be moving to the North Texas area at 0800 for recon. TXDPS also has 1 fixed-wing asset with downlink capability that could send live footage into the SOC (weather dependent). All missions and assets have been added to the Aviation Board in WebEOC.

Texas Civil Air Patrol (TXCAP): Eight fixed-wing aircraft available across the state (weather dependent).

Texas A&M Forest Service (TFS): TFS continues to staff the Emergency Services Branch at the SOC. There are 2 personnel staffing DDC-6 Tyler. An IMT team is on scene in the City of Van.

Resource Kind and Type	Quantity	# Personnel	Status	Resource Location	Notification Time Required
Overhead	2	2	Assigned	SOC	
Support	2	2	Assigned	DDC-6 Tyler	
Type III IMT	1	1	Assigned	Van	

Texas Parks & Wildlife Department (TPWD): No requests for assets were received. TPWD personnel are standing by for requests and continue to monitor the situation.

Resource Kind and Type	Quantity	# Personnel	Status	Resource Location
SAR Boat	1	3	Activated	DFW Area
SAR Boat	1	3	Activated	Panhandle
SAR Boat	1	3	Activated	Guadalupe
SAR Boat	1	3	Activated	Kerr
Rescue Swimmer	1	2	Activated	Austin
A Star Helicopter	1	2 (observation only)	Activated	Austin

Texas Commission on Environmental Quality (TCEQ):

Cooke County:

The City of Valley View Waste Water Treatment Plant (WWTP) reported that there was a power outage to the WWTP which caused a diversion of wastewater into an onsite retention pond. No wastewater was discharged offsite. The power has been restored to the WWTP, and the plant is back to normal operating conditions.

The City of Gainesville is isolating parts of the plant to prevent a washout. The city also states that the receiving stream is 2 feet from overflowing the banks, into the WWTP.

Era WSC is reporting that a lightning strike may have damaged a service pump, causing a loss of pressure. The water system is working on repairing the service pump to return the system back to normal operating condition.

Approximately 13 railcars and four locomotives derailed from a BNSF train in Cooke County. DFW Emergency Response staff made contact on-site with EPA and BSNF. The railcars were only hauling goods, including paints, soaps, food products, etc. The four locomotives had between 4,000 - 6,000 gallons of diesel each; two of the locomotives are leaking diesel and hydraulic fluid and the amounts for the other two are unknown. Earthen berms were made around the locomotives to hold spill. Released material also contained in a low-lying area near the derailment site. BNSF informed TCEQ that the berms around the derailed locomotives held up throughout the rain event. The rail line has been repaired and a couple of trains have passed through with no issues. Hard booms were placed in Spring Creek to capture any diesel fuel from the derailment. BNSF stated that no product was observed in Spring Creek. BNSF is currently constructing a road to the locomotives which is expected to be completed on May 13th, 2015. On May 11th, 2015, staff was on-site, the spill is contained and the cleanup is actively on-going. TCEQ will continue to monitor the clean-up activities.

A Public Water System (PWS) reported losing power for 30 minutes but maintained pressure above 20 psi, power and pressure was restored.

Dallas County:

The North Texas Municipal Water District (NTMWD) is reporting a 225,000 gallon SSO from the Spring Creek lift station in Richardson. NTMWD is preparing a public notification for the media and have notified the cities of Richardson, Garland, and Dallas. City of Dallas personnel and Garland Health Department were on site observing the creek and did not see any environmental impacts. Four Sanitary Sewer Overflows (SSO) were reported.

Denton County:

The City of Sanger is reporting a 50,000 gallons SSO from their WWTP, which has been contained on site, however, the SSO is still ongoing. The WWTP did not lose power at any time. Four SSO's were reported. Denton County is planning to dispose of hundreds of animal carcasses at the Denton Landfill. TCEQ DFW Region staff contacted the Denton landfill manager. The landfill confirmed they are capable of handling the disposal of the carcasses as special waste under the landfill's permit. At the request of the county, TCEQ DFW Region ER staff will be responding to the Denton County EOC to discuss debris management and requirements for temporary debris management sites.

Erath County: Two SSO's were reported. Three dairies have reported lagoon overflows due to rain events.

Fannin County: Two SSO's were reported. A PWS reported losing power for 45 minutes but maintained pressure above 20 psi, power and pressure was restored.

Grayson County: Twenty-six SS's were reported. Two PWS issued a Boil Water Notices (BWN). One PWS had a line break, the break was fixed and bacteriological samples were taken. The other PWS lost power due to lightning strikes at both pump stations which caused a fire and significant damage, power was restored and bacteriological samples were taken.

Henderson County: A dam on FM 317 was overtopping. The county Sheriff's Office has issued a voluntary evacuation for people who live between Athens Fish and Game Club Lake and Lake Athens. TCEQ staff along with the Henderson County Emergency Management Coordinator and the dam's owner representative conducted a preliminary inspection of the structure. The inspection showed significant damage to the structure and roadway. No leakage from the dam was observed, but if the dam were to overtop again it could be at risk for failure. The TCEQ Engineer removed two boards from the weir gate at the spillway which should help lower the water level by an additional foot. The TCEQ Engineer will meet the owner and their engineer at the dam on May 12th, 2015.

Nine PWS owned and operated by the same owner have experienced flood damage to water mains at low-water crossings. Additionally, 1 of wells is inoperable due to an electrical outage.

Hood County: Three SSO's were reported. Two PWS issued BWN's. One PWS had a main break due to heavy flooding. The main was repaired, lines flushed and a bacteriological sample were taken. One PWS had a main break caused by heavy flooding. The system is currently working to replace the main. Approximately 149 connections are impacted and 14 connections have no service.

Johnson County: One SSO was reported. Four dairies have reported lagoon overflows due to the rain events.

Navarro County: Three SSO's were reported. A PWS reported one of their plants was shut down but is back operational. Another PWS reported 20 connections are without water due to lightning strikes and a main break. The system issued a BWN.

Parker County: One SSO was reported.

Tarrant County: Eight SSO's were reported.

Wise County:

The City of Rhome WWTP reported a SSO of 15,000 gallons of sludge/influent due to the aeration basin overflowing.

The City of Boyd WWTP reported a washout of their entire treatment plant and sludge has entered the creek and into the Trinity River. The city will continue to monitor downstream of the WWTP.

Coyote Ridge Addition is reporting that the well is down due to storm. The water system has an emergency interconnection with a nearby water system and is currently being supplied with water. The well company is on site to repair the well.

A PWS issued BWN due to a pump failure. The system collected bacteriological samples. Another PWS issued a BWN due to a large water leak. The system is repairing the leak and collecting bacteriological samples.

Four SSO's were reported.

Texas Education Agency (TEA): Two of the five Van ISD school buildings were damaged in addition to the bus barn and administrative building. The Superintendent is evaluating options for the approximately 600 students affected to determine how they will finish the remainder of the school year.

Texas Department of Transportation (TxDOT): TxDOT crews are reporting minor flooding on multiple low volume FM roads throughout the state. Crews will continue to monitor the situation and remove roadway debris as needed.

Texas Military Forces (TxMF): A Ground Support Package (GSP) is stationed in Denton at the National Guard Armory. An Air Support Package (ASP) is stationed in Grand Prairie. An ASP is stationed in College Station. An ASP is stationed at Austin-Bergstrom International Airport (ABIA). A TxMF Liaison was activated to DDC-Tyler. A Military District Coordinator (MDC) was activated to Denton. A Public Affairs Officer (PAO) was activated to College Station to coordinate with an aviation aerial transportation package.

Resource Kind and Type	Quantity	# Personnel	Status	Resource Location
Ground Support Package	1	26	Available	Denton
Aerial Transportation Package	1	3	Available	Grand Prairie
Aerial Transportation Package	1	3	Available	College Station
Aerial Transportation Package	1	3	Available	Austin (ABIA)
PAO	1	1	Activated	College Station
TxMF Liaison	1	1	Available	Tyler
MDC	1	1	Available	Denton

American Red Cross (ARC): ARC is in contact with local Emergency Management in the following counties to offer Red Cross assistance, gain and share situational awareness and determine the accessibility of impacted areas and the safety conditions before sending Red Cross workers to the affected areas: Eastland, Erath, Parker, Tarrant, Hood, Johnson, Dallas, Grayson, Cooke, Denton, Montague, Wise, Collin, Wilbarger, Archer, Wichita, Reeves and Hill. In response to flooding in Krum (Cooke County), a number of individuals were airlifted from their

homes via helicopter. To support clients impacted by the flooding, the Red Cross has opened a shelter in Denton. ARC also has opened a shelter in Van, with a census of 50; and an independent shelter is open in Corsicana with a census of 15. Impacted residents in areas such as Bowie, Rhome, Van Alstyne, Electra, Cisco and other affected communities have had families to stay with. By late afternoon we had been in contact with approximately 40 families in area and we will be distributing supplies and completing DA as soon as it is safe. As of 9:48 AM Monday morning, the Cisco damage assessment revealed 3 homes destroyed and 1 with minor damage.

American Red Cross has activated its safe and well website for survivors to check in.
<https://safeandwell.communityos.org/cms/index.php>

Civil Air Patrol- U.S. Air Force Auxiliary (CAP): Eight fixed wing aircraft are available across the state. (Weather dependent)

Public Utilities Commission (PUC): Oncor has approximately 5,400 customers without power.

Texas Department of State Health Services (DSHS): DSHS is manifesting the State Medical Operations Center (SMOC) personnel for weekend activation (currently on standby). DSHS will have a representative at the SOC 24/7. They are gaining situational awareness in the affected area (Health Service Region 2/3) and tracking incident costs. There are no unmet needs at this time. There is a DSHS ESF-8 representative at the SOC as of 0700 hours on May 11th, 2015. An AMBUS from EMTF-4 (Palestine) responded to an incident in Van Zandt County. A Medical Incident Support Team (MIST) member, AMBUS (EMTF-2 Dallas) and ambulance strike team (EMTF-2 Dallas) have been demobilized as of 3:30 PM on May 11th, 2015. Disaster Behavioral Health is monitoring the situation. A total of 31 patients have been transported to hospitals in Tyler.

Resource Kind and Type	Quantity	# Personnel	Status	Resource Location
Ambulance Strike Team	1	11	Demobilized	
AMBUS	1	6	Demobilized	
MIST Member		1	Assigned	DDC-Tyler
SOC Liaison		1	Assigned	SOC
HSR Liaison		1	Assigned	DDC-Tyler

Texas Health and Human Services Commission (HHSC): Health and Human Services Commission along with 2-1-1 is monitoring the situation. HHSC has 2 personnel at the SOC.

Texas Department of Family and Protective Services (DFPS): DFPS is participating in the SOC activation. They are in the process of checking the welfare of conservatorship children and staff in Van Zandt County. No internal Incident Management Teams (IMTs) have been activated at this time, and there has been no alteration to standard operations. DFPS continues to monitor the situation closely.

Texas Voluntary Organizations Active in Disaster (VOAD): Texas Voluntary Organizations Active in Disaster vice-president is on duty at the State Operations Center (SOC). A conference call of the Texas VOAD membership was held at 11:00 AM (CDT) this morning to coordinate

efforts. Most VOAD agencies are standing by for recovery, and there are no unmet needs. Operational information from specific VOAD agencies follows:

Adventist Community Services Disaster Response

Standing by and prepared to deploy the clothing distribution truck if needed.

Feeding Texas

Unable to reach 4 food pantries in the Cisco and Eastland areas. One food pantry is operational in Eastland. All food banks are currently functioning as normal and ready to respond as needed.

Southern Baptist of Texas Convention Disaster Relief Ministry

Cleanup team on site in Morgan Mill for tree removal. Cleanup team en route to Ennis for requested flood response. Cleanup team preparing to deploy to Cisco for requested house debris removal. Assessment team in Van and multiple response units (feeding, cleanup recovery, chaplain) on standby and alert. Assessment Teams also in Hill, Ellis, and Navarro Counties.

ALERT

Currently responding in Van.

Victim Relief Ministries

Assets on the ground in Van (Van Zandt County). Planning to pull back from the red zone and setting up operations at the Church of Garden Valley.

United Methodist Committee on Relief (UMCOR)

Central Texas UMCOR sent a chainsaw team to Morgan Mill (Erath County) to assist with tree and debris removal. Planning to deploy additional teams.

Missions on Wheels (Available resources if needed):

- ADA Shower Trailer currently in Llano; available to deploy after May 12th
- Generator Trailer is deployable.
- Bunk Trailer is currently available, but may be requested for II LTRC.

VOADs on Standby

Save the Children is closely monitoring and stands ready to help support unmet needs of children.

Team Rubicon is on standby.

OneStar Foundations's AmeriCorps Texas program – Texas Conservation Corps at American Youthworks has 18 AmeriCorps members standing by, prepared to deploy if the need for a Volunteer Reception Center or other support need should arise.

The Salvation Army (TSA): The Salvation Army activated a liaison for the SOC to monitor any requests. The liaison was active beginning May 9th, 2015. Abilene Corps responded to Cisco on May 10th after the local Emergency Management made a request. Emotional and spiritual care as well as meals, hydration and snacks were provided to first responders and survivors. Abilene Corps is responding again today to provide identical services.

The local fire chief in Corsicana requested that the Corsicana Corps open a shelter at 10:00 PM (CDT) on May 10th. The shelter total last night was 16. As of 10:00 AM (CDT) May 11th, 11 people are still present, with five leaving within the next few hours.

Tyler Corps responded to Van at 8:00 AM (CDT) this morning. Services provided will be updated once there is confirmation.

Resource Kind and Type	Quantity	# Personnel	Status	Resource Location	Notification Time Required
Liaison	1	1	Active	SOC	
Shelter	1		Active	Corsicana Corps	
Mobile Kitchen	1		Active	Cisco	
ESC Team	1		Active	Cisco	
Mobile Kitchen	1		Active	Van	
ESC Team	1		Active	Van	

This table displays TSA's resources only.

FINAL COMMENTS: The State Operations Center (SOC) increased its activation level to Level II (Escalated Response Conditions) effective at 7:00 AM (CDT) Friday May 8th, 2015. The SOC held a severe weather event conference call with the National Weather Service and State agency representatives at 10:00 AM (CDT) yesterday morning. The Texas Division of Emergency Management (TDEM) continues to monitor the situation and will provide additional situation reports as needed.

The four levels of SOC activation are:

- Level I (Emergency Conditions)
- Level II (Escalated Response Conditions)
- Level III (Increased Readiness Conditions)
- Level IV (Normal Conditions)

This Situation Report can be found on the TDEM webpage at www.txdps.state.tx.us/dem.
